

2010 | Stock Range
Corporatewear Collections

SKOPES
ESTABLISHED 1948

welcome !

We are delighted to introduce the latest Skopes corporate clothing collections. Full of innovative and inspirational tailoring, all our collections are available direct from stock.

At the beginning of each collection, you will find a helpful introductory page which provides key information on fabric and garment performance as well as style, colour and size availability.

All our womenswear collections are now easy-care and machine washable. We've also increased the size and fit options across all ranges, with the aim of making things as simple as possible when choosing the right collection for you.

Our menswear collections have also been updated with new styles designed to co-ordinate with the womenswear and all available in an extended range of sizes and fittings.

There are two stunning new collections:

247mode

247mode offers a co-ordinating range of menswear;

essentials

Essentials is a womenswear collection which includes a stylish maternity trouser option.

Both of these new collections offer seriously good value.

U:P
ULTIMATE PERFORMANCE

In addition, our award-winning **U:P Ultimate Performance** collection has also received a makeover with new styles and colour options.

Skopes corporate tailoring collections are available from professional corporate clothing suppliers who will be able to provide expert guidance and advice.

A stunning new collection brings the latest contemporary High Street look to corporate dressing. What sets 247mode apart are it's fantastic details such as feature linings, lined trousers with pockets and jackets with hand edge stitching - benefits which are both practical and stylish. 247mode is wool rich with 2-way stretch Lycra plus Teflon stain protection and is easy care machine washable.

Co-ordinating menswear can be found on pages 30-31.

essentials

Another completely new collection, Essentials is from a new generation of sophisticated polyesters designed to offer the easiest possible care with minimum fuss. Essentials collection fabric is soft, drapes beautifully, yet is practical and hard wearing. Garments can be worn in the most demanding environments with confidence.

Essentials is purely a womenswear collection - for menswear see our 247mode Collection on pages 30-31.

about skopes

Skopes is a family owned and operated business. Established in 1948 the company has a rich heritage in the clothing industry, with over 30 years experience in operating a stock support service.

As well as being a major supplier of corporate image clothing Skopes has a long and successful track record in supplying garments to leading high street retailers, department stores and mail order companies. It is this diversity that enables us to support a large stock holding for our corporatewear customers, with the benefit of economies of scale to keep prices low, as well as the knowledge and design skills to keep abreast of the latest trends in styles and fabrics.

We are committed to delivering exceptional value in what we do and while we keep prices competitive we also recognise that value can be added in many other ways:

The Environment

We recognise that our business has an impact on the environment and our aim is to reduce this impact and encourage our supply chain partners to do the same. As part of this process Skopes is currently implementing ISO 14001

Environmental Management System and will continue to raise awareness within its staff and suppliers towards making continual improvements.

As an example of this commitment our new 247mode Collection fabric is supplied by a mill, made into

garments by a manufacturer and sold by Skopes itself, all of whom are ISO14001 compliant.

Corporate & Social Responsibility

Fundamental to our activities is to ensure the goods and services we supply do not cause any embarrassment to the companies and organisations that wear our garments. As well as having our own staff based in the Far East, who inspect our manufacturing partners regularly, we also conduct independent audits of these factories to ensure we trade in an ethical way. Our standards are based on the ETI Ethical Trading Initiative Base Code of Conduct for suppliers.

Quality

We take great care in producing corporatewear collections to the highest standards, and include

wearer trials in our development process. To provide confidence for buyers and wearers we have included, where applicable, the results of fabric trials and garment wash tests, on the introductory page for each of our collections. These tests are conducted by an independent testing laboratory in the UK on an ongoing basis. For fabrics, most tests are graded on a score of 1-5 with 5 being the best. Abrasion and pilling tests are an important indication as to the durability of a fabric.

As an example, a garment produced for high street retailers may be acceptable with a pilling test score of 3 and abrasion test score of 18,000 rubs. Skopes corporatewear collections are developed from the outset to achieve the best standards.

Skopes - Winner of the Best Careerwear Design Stock Range Award in the 2009 Company Clothing Industry Awards.

Visit our website where you can find out a great deal more including practical advice on how to get the best from your Skopes corporate clothing.
